SUMMARY

Front-End Developer experienced in building responsive interfaces using React.js, TypeScript, HTML, CSS, and JavaScript. Focused on creating user-friendly designs that work well across devices. Passionate about improving web experiences with clean and simple solutions.

WORK EXPERIENCE

Frontend Intern, Numors   **April 2023 - May 2023**

- Designed and developed a responsive website for "KARMI," an agriculture focused NGO
- Improved their online presence. Collaborated with stakeholders to align the site with the organization's mission, integrated user-friendly features, and optimized SEO to boost visibility.

Leader, ScriptoGeeks   **Sept 2024 - Present**

- As the leader of ScriptoGeeks, I work to build a vibrant coding community in my university campus, encouraging peers to embrace a collaborative and productive coding culture.
- I believe in growing together as a team rather than individually. My focus is on inspiring creativity, teamwork, and skill growth among members.

EDUCATION

Bachelor of Technology in Electronics and Communication Engineering   **Sep 2024 - August 2028**

University of Kalyani
